Last November he and two other men found employment in the quarries at Alnwick Park, Montgomery County, Pa., where a large number of industrious Italians are working. The men live in huts. Prudente and his two companions worked along for four or five days, learning the habits and ways of their countrymen and gaining their confidence.

Detective Donaghy learned that Prudente and his friend had gone to New York and he followed them here. Yesterday he had a conference with Inspector Byrnes, who detailed Detective Sergeants Perazza and Tessic on the case.

If Prudente still clung to his ear-rings the detectives had hopes of capturing him. A search was made in the Italian quarter of Mulberry street last night, and Prudente was caught in No. 40. He would have offered resistance, but three well-armed detectives kept him subdued.

It was said by some of his countrymen that Prudente had a bad reputation in Italy. Justice White committed him for ten days to await a requisition from the Governor Pennsylvania.

### A SPLIT IN THE CONTROL OF THE AMERI-CAN LOAN AND TRUST COMPANY.

To the Editor of The Evening World:

Myself and friends seeing a despatch published in which it was stated that Mr. W. E. Hording, the Police Gazette's agent in connection with the Kilrain-Smi h fight, was a passenger on the Umbris, to arrive next week, wish to know if he will have to pay duty on the large amount of jewelry presented to him in London just before he sailed, which includes gold badges set with diamonds, pearls and other stones, damond rings, gold buttons and a gold-headed umbrelia.

Some of us say no, while others say yea, backing up their view by saying that Mr. Lordlard paid duty on the Esson Gold Cup won by Parole, and that Mr. Keene has trouble with the Custom-House people about the Ascot Gold Cup, won by Poxhal. Will The Evening world kindly settle the dispute? Respectfully,

"The first thing that he did was to try to sell this company the worthless charter of the Commercial Trust Company for \$50,000. I wouldn't give my consent to the purchase, and he then tried to hurt the concern.

"He induced our Secretary, W. D. Snow, to take his side by promising Snow the Vice. Presidency of the company when he got control. been a cooler burglary committed than that a which was worked on a jeweller's store on Ninth avenue while the lights were burning brightly in the

people passing up and down the sidewalk. The proprietor of the store was a German, rather small, and pretty good looking. The account he gave of the burglary was as fol-

"It was nearly 9 o'clock Monday night. I was about to shut up my store and had already put some money and papers into the safe. Just then two young men entered the store."

I FELT A CRUSHING BLOW ON MY HEAD.

"One of them advanced towards me and said he would like to speak to me a moment have valued. Would I step into my private office for a moment where he could show them to me without any danger. They were gems which he wished to dispose of, old family jewels belonging to a friend who had taken them from their settings that they might not be recognized. They had been in the family for some years and any one who had seen them would have recognized whence they came if they were left in their rich, quaint settings.

"I told the fellow I was just about to close up and would rather be would come in the morning. He told me he could not, as he had come in from a place out of town only to sell the jewels, and had timed his call so that he might find me when there would not be many customers around.

"Well, I consented to look at them, and moved back into a room off the store, where I kept my books and where the safe stood. I entered the room and stood waiting to have the jewels produced. The man thrust his hand behind him, as if about to produce them. Suddenly he whipped his hand round, and I had barely time to see that he had drawn forth a piece of curved lead piping when I felt a crushing blow on my head and

" When I came to I did not realize at first what had occurred. I felt a throbbing in my head and gradually remembered being struck by the man. Everything was dark in the store, except for the lights which came in from the lamps in the street outside. I rose, lit the gas and looked about. I found I had been robbed. The safe was broken open and \$1,300 taken, and a large quantity of watches, valuable rings, earrings, studs and the like had been removed from the jewelry cases. I suppose the total loss would amount to fully \$7,000.

"The thieves had turned out the gas and the door was shut but not locked. There must have been three or four of them, because it was not later than a quarter past 9 and plenty of people were passing up and down outside. They could not afford to be too long, and one had to keep an eye on me, in case I came to, so as to settle me."

This was the story the jeweller gave us. Of course, the first thing done was to examine the man's head. He had been knocked senseless by a blow from a piece of lead pipe, vet there was no contusion on the skull, nor

bruise, though there was a small lump. It didn't seem likely that thieves would go into a store where the proprietor was, with the gas lit, at an hour when there were crowds of people streaming up and down in front of it, rifle the jewelry cases, crack the colder and fair resather; safe and coolly walk off with the spoils, with-brisk to high winds, di-out anybody catching on to the "Locket." grant a continuance of the December wages, but he would not entertain a proposition to couple the miners' case with that of the railroad hands.

He regarded the railroad strike as at an end and, in any case, an entirely separate affair from the miners' strike. The company could not afford to recede an inch from the position it had taken on the railroad strike.

The interview of Master Workman Lewis, of National District Assembly 135, with Mr. Corbin on Tuesday seems to have been equally unsatisfactory to the miners, and the conclusion is irresistible that both sides are preparing for a long and obstinate fight.

By many persons in this locality grave fears are entertained of trouble two or three weeks hence if the strike lasts so long. Indeed, a man in position to know what is going on at Harrisburg told me last night that he fully expected to see the militia called out before this strike is ended.

It is also said by other parties that the State officials have already had one or two consultations as to the advisability of holding the militia ready for any emergency. Everything is quiet in the mining regions to-day, and all of the individual collieries that ship over the Philadelphia and Reading road have stopped work.

Col. Rice, the Governor's private secretary, appeared soon after with a message from Gov. Hill demanding that the Legislature should pass some bill whereby the inmates of the Bath Soldiers' Home shall not be prevented from voting any ticket they choose.

After Robert Ray Hamilton had sarcastically characterized the message as a piece of buncombe and moved that it be referred to the Committee on Grievances, through the oratorical efforts of Mr. Sheehan it was referred to the Judiciary Committee.

Mr. Crosby had scarcely introduced his High-License bill than Mr. Roesch handed up another which prohibits the sale of intoxicating liquors on Sunday and election days in villages, cities and towns having less than 50,000 inhabitants, but granting consent to sell beer and light wines between the hours of 2 p. M. and 12 midnight on Sundays in cities having a population of 50,000 or over. This is substantially the Giegerich bill of last year, which was killed in committee.

The Governor's message as to the disfranchisement of inmates of the Bath Soldiers' Home was received in the Senate upon its assembly, and on motion of Mr. Low was referred to the Committee on Judiciary.

Senator Cantor introduced the new Canal bill which appropriates \$1,000,000 instead of \$550,000, as provided by last year's measures. Senator Ives again submitted the perennial Field Code bill to the tender mercies of the upper house, which killed it last year.

that his father's testimony of yesterday was correct in every particular.

Documents were produced by Platt's counsel to prove that he was legally appointed and confirmed as Quarantine Commissioner and that he had performed his duties faithfully.

The real question to be decided is as to where did Platt reside when he voted in Owego at elections from 1880 to 1887. Mr. Platt claims Owego as his legal domicile, but asserts that his residence is in New York. Platt is still confident of a disagreement. Should this prove true a new trial may be demanded by the prosecution. Should the verdict be against him an appeal will be taken.

Yorkville Police Court this morning charged with assault last evening upon Daniel H.

with assault last evening upon Daniel H.
Johnson, of 211 West Fifty-fifth street.
According to Mr. Johnson's statement
Stokes followed two young ladies who live in
the same house, and when they entered, remained standing on the stoop.
Johnson ordered him away, and on endeavoring to enforce the order was assaulted.
Stokes, he said, struck him several blows
over the head and shoulders with a walking
stick. Policeman Kelly arrested Stokes.
The latter denied any intention of offending the ladies. He said that they mentioned
his name as they passed him and he followed
them, supposing them to be acquaintances,
He did nothing to warrant Mr. Johnson in
ordering him from the stoop and simply used
his cane in self-defense.
He was held in \$500 to answer.

HAS SIDMAN LEFT TOWN? Timpson Says the Rev. Mr. Herr Lost His Money Through Speculation. A story was published this morning to the effect that Alfred Sidman, a member of the

late firm of Timpson & Co., stock brokers, of 51 Exchange place, had left the city to a void importunate creditors, and that he had induced his pastor, the Rev. Mr. Herr, of Jersey City, to go into stock speculations in which he had lost \$300,000.

The story is pronounced by Mr. Timpson to be false in all essential particulars. Mr. Sidman, it is stated, has been at the office of Mr. Timpson every day this week excepting on Tuesday, and was seen at 3.30 yesterday afternoon by Mr. Suydam, his counsel.

To-day it is said he is in Trenton, N. J., on business and expected to return soon.

The Rev. Mr. Herr speculated largely in stocks through Timpson & Co., Timpson says, having an account these from October, 1886, to August, 1887, and his losses were heavy. This money, however, was in no sense invested in the firm
